Day 4: Walking and Core Exercises

- **Activity:**
 - 20 minutes of walking

- 10 minutes of core exercises (e.g., seated leg raises, gentle planks)
- ****Safety Note:**** Listen to your body and stop if you feel fatigued.

****General Safety Notes for John Doe:****

- Given the slightly low hemoglobin level, it is important to avoid high-intensity workouts that could lead to fatigue.
- Always consult with a healthcare provider before starting any new exercise program, especially if there are concerns about energy levels or overall health.
- Stay hydrated and consider incorporating iron-rich foods into the diet to support hemoglobin levels.
- Monitor how you feel during and after workouts; adjust intensity and duration as needed.
